Dragonstone is coming to a close.

Where's Dragon Been? :ToothlessCurious:

Greetings @everyone!

I know it has been quite some time since I've communicated here, so I'd like to share an update with you all.

As of June 2026, I joined the Runeteria server team as an Environmental & VFX Designer. This is pretty much my dream come true, and we are working towards creating the best high fantasy MMORPG server possible within Hytale! This is where 100% of my creative energy has been going for these past few months.

Unfortunately, due to this, I have had no time or drive to continue working on Dragonstone. Turns out, working with a team is much more fun than trying to do everything yourself! Who could've guessed?

The Final Cycle

It is sadly time to announce that Dragonstone will be coming to an end.

As much as I wish I could keep the servers running forever, in the age of AI & rapid exploitation, the internet is becoming more and more unsafe for home-hosted servers. I sadly do not have the time to keep everything patched and updated like I used to.

We had a good run, and I wanted to thank everyone for all the fun memories we made together over the past decade. I wouldn't be in this position today without you all!

Shutdown Dates :ToothlessFlying:

Dragonstone Hytale:

- Shutting down on **December 1st, 2026.**
