Full Commands List

While Dragonstone is a survival based server, we do have a list of commands available to all users. These commands are used to improve the quality of life on the server.

List of Server Commands:

/command <variable>
Command Description

/spawn
Teleports you to the server spawn point after a 3 second warmup. Spawn Coordinates: 0,0,0 Works in any dimension.

/sethome
Sets your Home Point which you can teleport to with /home

/home
Teleports you to your set home point after a 3 second warmup.

/tpa <playerName>
Sends a teleport request to a player, which prompts them in chat to accept or decline.
The player has 60 seconds to accept the request before it is automatically declined.
Can be accepted by clicking the checkmark button in chat, or by using "/tpaccept"
If the player accepts, there is a 3 second warmup before you are teleported to the player.

/tpahere
Sends a request for a player to teleport to you.
If accepted, there is a 3 second warmup before the player is teleported.

/rules
Gives you a Dragonstone Guide. (60 second cooldown)

/warp <warpName>
Opens the Warp Menu which allows you to teleport to various locations.

You may optionally specify a warp name to skip the menu and warp directly.
Requires a 3 second warmup before teleporting.

/afk
Marks your player as AFK (Away From Keyboard).
Grants you damage immunity from hostile monsters.
Automatically activates if stationary for 5 minutes.
Deactivates if your player makes any actions.
Attempting to abuse AFK immunity while in combat is a punishable offense!

/msg <playerName> <message>
Sends a private message to the specified player.

/r <message>
Replies to the last player who messaged you.

/ignore <playerName>
Adds or removes a player from your Ignore List.
Players on your ignore list are filtered from your chat and cannot message you.

/seen <playerName>
Allows you to see when a player was last online.

/afkcheck <playerName>
Allows you to check if a player is AFK.

/vote
Opens the Vote Menu, which allows you to vote for Dragonstone as a top server.
Please see [here] for more information and rewards for voting!

/voteall
Prints all voting links directly into chat, bypassing the menu.

/vparty
Shows the number of votes before the next free World Potion.

/command
