

# Spawn

All coming travelers start off at spawn. You can also teleport here with [/spawn](#). The spawn is located at 0,0 in the sky. There are four different paths you can go from spawn. Going south from spawn will send you launching into the sky and either off the platform, or into the [RTP Portal](#). West of spawn you will find **[grief examples](#)**. The grief examples show you what is and what isn't allowed on Dragonstone. East you will find the Top Donators of this current cycle. North you will locate the Staff Room. If you choose to drop off the platform you will land in the [warzone](#). There you can find the public [nether](#) portal.

## Additional Images:

North

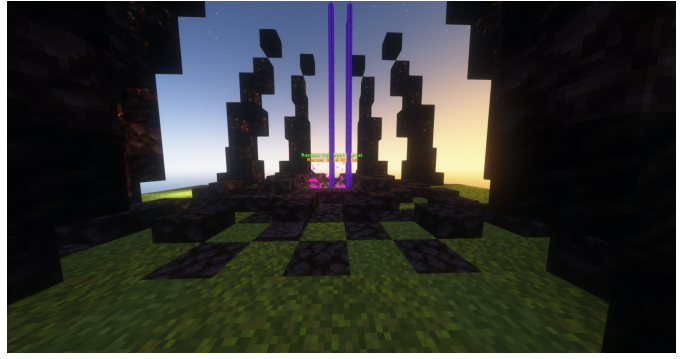

West

East

South

In earlier cycles, spawn used to have [The Dungeon Portal Room](#). However, as the current cycle, it was removed.

Going North East you will find...

**Usur Island!**
