

Warzone

This is the zone between spawn and the general server. In previous versions such as 1.17.

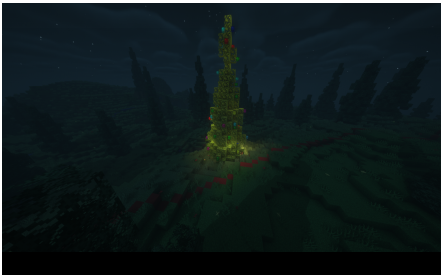

There was a more notable difference between it and spawn however in 1.18 it's start is indicated by red wool and end by blue wool.

Notable Differences from Other Map Locations

- PvP is Enabled
- Building is Prohibited
- Custom Trees are densely packed to encourage melee
- Terrain is Intentionally damaged to restrict movement

Points of Interest

- Christmas tree south west of spawn
- Water tunnel is an alternative exit to spawn
