Notable Players

Adi

IGN: diaay

[Redacted]

Annie

IGN: notthewackdoll

Dungeon Master - (Builder)

"For my next trick, ill shatter you into pieces."

Overview:

notthewackdoll, most commonly known as Annie, is the queen of Eterna and a friendly individual to all. Annie is a wonderful builder, who not only blessing her teammates with their creations, but also the rest of Dragonstone as one of the main builders. While by themselves they may seem harmless as they are not skilled in PVP, she has an army of fighters and paragons that would come to help her in any negative situation.

Contributions:

- One of the main builders on Dragonstone.

Built Maps:

- Server Spawn (1.19)
- Server Shop (1.19)

Notable Players

Dwarf

IGN: DwarfDiggy

"Diggy Diggy Hole!"

A terror of the past, but still looming in the background, Dwarf is one of the head builders on Dragonstone, and is responsible for many of the server attractions over the years.

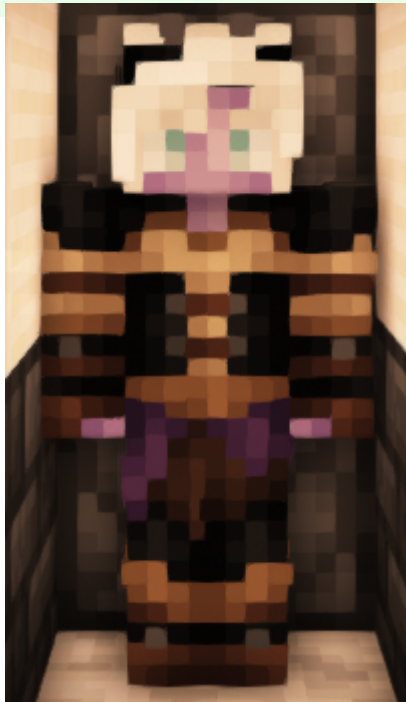

cool dude :D

Constructor of the Universe, TheMadKing, Holder of ancient technology and the WarlordWrath.

Filvren

IGN: Filvren

Dragonstone Staff - (Moderator+)

tle zooted..."

Overview:

Filvren is a Mod+ member of the staff team and a member of Eterna. They are the leader of Salixora, a mysterious kingdom far within the jungle. Filvren is a half-Drow with a deep connection to the realm of the Fey, the Feywild. This connection to the Feywild gives them mysterious wild magic. They have a pair of antlers, which grew when they were given the gift of wild magic from an Arch Fey.

Notable Players

Fridge

Paragraph

Iron

IGN: irontrooper205

"Gosh darn lizards!"

Overview:

Iron is a frequent player who runs the Iron News Broadcast, a news report that is published whenever something interesting happens on Dragonstone. A common inside joke is that Iron is a lizard, a statement of which almost guarantees a response of mild defensiveness.

Iron demeanor is often seen as kind but passive aggressive. He is often war driven but never on the battlefield, only ever to be rumored as dwarf's bodyguard. Iron actively wants to take the dragons down but has put in only secretive effort to see this dream through.

Notable Features:

- Wears a white cloak that hides their face
- They are associated with shadow like magic that reanimates not only clones of himself, but past pets
- Is the "owner" of Mushu the Mooshroom, although it is rumored that Mushu actually owns Iron.
- Leader of remnant
- Leader of the Senate*

Relations:

- Associated with MKA
- Good friends, and colleagues, with nobody

Temporary senate leader until elections in senate are complete or there is no longer a need for it

not a cool dude >:|

Luxe (EnderGrape)

IGN: EnderGrape

"Bungus."

Overview:

EnderGrape, also known as Luxe, is often seen as immature, but when it matters to him most, shows a mature, serious side to face conflict.

They are a void infused human/enderman. They are currently the only player to possess a void dragon helmet.

Their determination for anything they set their mind to remains constant, and their determination for /playtimetop remains forever unbroken. Whatever the reason may be, you will almost always find him at the top of the leaderboard.

Notable Features:

- They have a dark frame, with typical clothing and glowing eyes
- They have another outfit, one with a long white cloak
- They are the only void dragon in existence
- The leader of the grapes

Relations:

- Friends with all of the OG members, yet distant from them.
 - Known to associate with infamous players.
-

Notable Players

Maleah

IGN: MaleahTries

"I'm not just a healer, now rot."

Paragraph

Contributions:

- Dungeon Master (Content Creator)
- Created textures for the Aether Armor set.
- Assists with various building projects on Dragonstone.
- Assisted in construction of the Server Spawn (1.19)

Mentos (Drackys)

IGN: METOOCOOL

"You Dare?!"

Overview:

Mentos, also known as Drackys by other Dragons, is a very reclusive player who is known to be a Storm Dragon.

They are the only known storm dragon on Dragonstone, and is rumored to possess powerful lightning channeling abilities. They are often presumed to be unkillable and impossible to locate. They possess exceptional mastery in the element of Earth.

They rarely speak in chat and tend to avoid conflict as much as possible, however it is wise to avoid provoking them. They are rumored to be Enkindled by the Dragon of The Night, although the extent of their power is not yet known.

Notable Features:

- Drackys is a storm dragon with large glowing purple wings.
- Their wings appear to grant them the ability to fly for short periods of time.
- They have been observed channeling lightning from a long distance away.
- Their Dragon Scales make them completely immune to fire.
- They possess exceptionally high levels of Earth Affinity.

Contributions:

- They are currently the main builder for Dragonstone, and have worked on many dungeons, uhc maps and server spawns.
- They also have a direct involvement in creating [redacted].

Built Maps:

- Server Spawn (1.18)
- The Outpost (Dungeon)
- Ancient Digsite (Dungeon)
- Enchanted Caves (Dungeon)
- Islands (UHC)

- Woods (UHC)

Relations:

Nobody

IGN: Nobody4831

"..."

Overview:

Nobody is a player often associated with the void, as well as indirect chaos.

They don't often speak in chat, and when they do its often passive. Even in arguments, nobody remains seemingly calm, just maybe overly agitated. Nobody often spends his void time mining out the main island, to prevent players from escaping, and to try to force Dragons hand to turn him into a void custodian.

Notable Features:

- Dark figure with dull white eyes
- They own a sea dragon helm
- Known to hold the egg

Contributions:

- Hand placed every block of water in dragonstone.
- Does a lot of touch up work on builds to get them ready for production.

Relations:

- Known to be a strong ally with Iron.
 - Often disagrees with Tartaglia and Dragon.
-

Phoenix

IGN: Phoenix24k

"Careful, I die twice"

Phoenix is the head admin and usually the most active of the admin team. He runs the MAX Enchantments franchise in shop, which is now in its sixth reiteration. Phoenix is calm and reasonable when handling situations.

Though enchanted books are his main business, Phoenix can lay his hands on a number of different resources if the price is right.

Phoenix is a close friend to Sunset.

Rota

IGN: Rotanova

"You can't kill a thief like that!"

Rota is one of the UHC map builders for the server's team, due to his more experimental style. Rota was responsible for 1.18's shop world, and is working on future UHC maps. Rota joined the server in 1.17, and has quickly climbed the ranks to become well respected among the community at large. Rota is a member of Sunset.

(Also one of the main wiki contributors)

Ruepic

IGN: Ruepic

Peaceful

Ruepic, while rarely joining the server directly, often helps moderate the server's official discord channels. If Dragon isn't around, it'll usually be Ruepic taking care of the mess.

Tartaglia

IGN: ImDummyThinn

"Drown."

Overview:

ImDummyThinn, also known as Tartaglia, is a player who claims to be a fish, and wields quite powerful water like abilities.

They are known by titles such as Harbinger, Tart, ETC. and actively hunts down annoying players. They have a calm and caring demeanor with the players they find fun or consider friends, and a gentle one with new players, but that tone quickly changes if Tartaglia finds the player annoying. Tartaglia once exposed coordinates belonging to the MKA over a grudge with a player named SSoy.

They are very active in chat and often seem aloof but can turn quite toxic when players who exude similar behaviors start making an appearance.

Notable Features:

- Commonly found in Annie's floor
- Their horns seem to be the source of their extreme water-based capabilities.
- They can summon a hit scan water beam at very long range
- They regen health much faster than others
- They possess exceptionally high levels of Water affinity.
- They have to feed on blood to use their abilities, however feeding isn't required to live, and only speeds up the casting process.

Contributions:

- They are the Lead DM.
- They make abilities and mobs as well.
- They made an unreleased set
- They write the lore for dragonstone

Relations:

- Is known to be friends with Dragon and Mentos, and Eterna's Harbinger
- Has a strong hatred for Dwarf, and the MKA in general

Usur

IGN: Usumamb18

Peaceful

Usur is a frequent player who carries an obscure personality that is annoying to some but entertaining for most. It is often joked that they are the owner of the server, or that they are the most powerful player, among other inside jokes.

Usur used to be a Moderator, but was stripped of this responsibility and power some time ago.

Groups/Alliances

The groups of Dragonstone and their history on the Server or Alliances that have made an impact on the server good or bad

Sunset

Sunset is a group founded in 1.15 by NezumiDalegend, with the first members being TheAlphaWolf, MonkeyBug34 and MasterTagz. As the versions of Dragonstone have gone on, Sunset has grown in size. It is a peaceful group that tends to stay out of trouble, and has an alliance with the Iron Forge, the Reach, and Remnant along with Eterna. Dragon himself approves of the group, and considers them friendly. Sunset has made some enemies, with the main one was the Mad King Alliance due to their leader, the Mad King, having it out for the group. Sunset's name comes from the team's banner created by Nezumi, which resembled a setting sun.

Current Main Members of Sunset:

NezumiDalegend (Nezu): Founder and leader of Sunset

MasterTagz (Tagz): Co-leader of Sunset

TheAlphaWolf (Alpha): Core member of Sunset, head of security and the strongest member of the group

Monkeybug34 (Monkey): Co-head of redstone with Tagz, and the main prankster of Sunset

- Revival_Rival(He has re joined after his time away)

Remnant

The Remnant are a old order that have been around since the beginning of Dragonstones creation. originally they were known only as the Iron Forge. The Iron Forge lead by (Iron) was a group who hunted dragons as well as gather technology to improve their strength across Dragonstone. The Iron Forge however was reformed into a new order around Dragonstones recreation in 1.17 known as the Remnant. The Remnant are small in numbers and not much is known about them except their desire to hunt dragons and discover new and interesting artifacts, technology, and magical sources of power to improve their order.

Current Members:

Irontrooper205 (Iron): Leader of the Remnant. (Ferrum)

Metooool (Mentos): Remnant War Council Leader.

Wags1105 (Wags): Council Member of the Remnant.

Ltm77 (Ltm): Council Member of the Remnant.

Stonecutter Mafia (SCM)

The Stonecutter Mafia is an underground group of mysterious players that is led by SoulReacher. They appeared in late 1.18 and have two goals in mind:

- 1: Recognize the importance of stone.
- 2: Build stone related projects all around the map.

They dedicate all their work and accomplishments to stone. They believe without stone to hold the world steady, life could not thrive. SCM has two diplomats in the senate

Current Known Members (Old)

Completed Projects

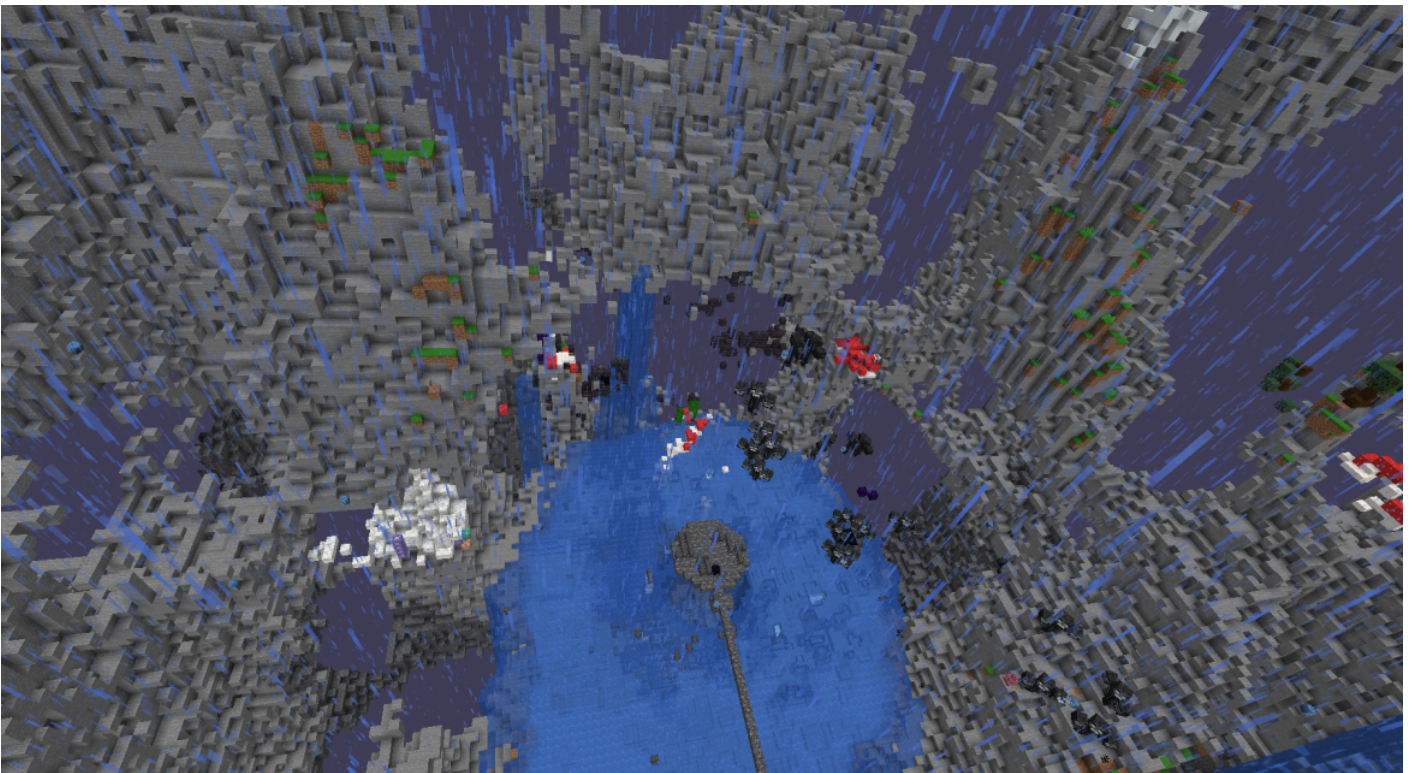

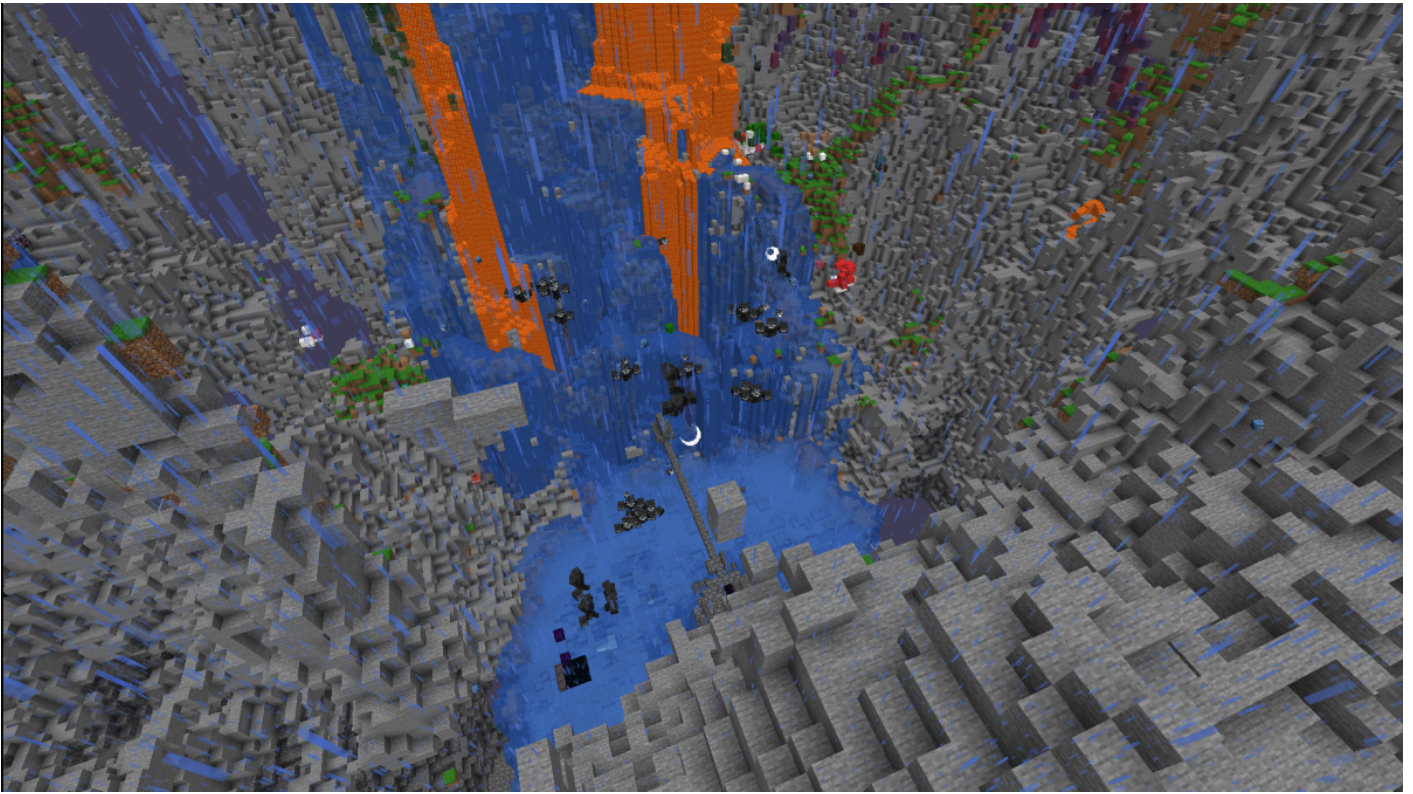

"1.18 Spawn Obelisk"

Raw copper and granite obelisk to the north of spawn. Depicts two hammers used for smashing stone.

"The Sacking of Spawn"

The sacking of 1.18 spawn was an effort done by SOVKER to destroy as much as spawn as possible during the chaos mode of 1.18. He summoned over 170 withers, set off a shulker worth of TNT, and used a dragon egg to summon an elite dragon. A player known as ThePlaguebringer attempted to thwart the sacking by killing the withers, but only managed to kill 50 before giving up.

1.19 SCM Shop Island

The SCM shop island houses shopkeepers of the SCM to sell various goods.

In Progress:

Chess-CM

ChessSCM is a project done jointly between SCM and Nobody. The purpose of the project is to educate the population of the mechanics and skills of Chess. This will also come with Nobody's massive public wheat farm which is nearby.

Peragulag

Petragulag will be a giant stone mine dedicated to fueling the stone economy of the server for eternity. Will feature a cobble and basalt generator.

Hole.

hole.hole.hole hole hole hole.

Upcoming Projects:

Hall of Coolham

This project is dedicated to Coolham. A brave person who fought the deadliest of creatures in the depths of the underworld. The hall of Coolham will feature a mosaic of Coolham's majestic face and will be built into the side of a mountain.

Potential Projects:

Revamp, and Recruitment Project:

This project will be directed at recruiting, revamping and restoring original values, and practices of the group, and bring some definite builds and future goals into fruition.

-soul

Cancelled Projects:

1.19 Spawn Obelisk

The 1.19 Spawn Obelisk would of been similar to the 1.18 spawn obelisk in shape but was planned to be much larger in size and use a different stone palette. The project was cancelled due to the shape and structure of 1.19 spawn. Due to it being an island, it would of been very challenging to build a visible spawn obelisk. This project may be re-opened in the future.

Eshat (Virtual Shitters)

////////////////////////////////////WIP////////////////////////////////////

Eshat is a group of players on the Dragonstone Minecraft server known for their mischievous and unconventional gameplay style. The group was founded approximately two years ago by a group of players who referred to themselves as "shitters" due to their tendency to engage in playful pranks and jokes.

Despite their reputation for causing chaos on the server, the members of Eshat are also known for their strong sense of community and camaraderie. They are often found collaborating on large-scale building projects.

In addition to their playful antics, the members of Eshat are also known for their skills in various areas of the game, including building, redstone engineering, and jumping around. They have gained a reputation as formidable opponents in the server's various minigames and tournaments.

Despite their reputation for mischief, the members of Eshat are well-respected within the Dragonstone community for their contributions and their positive impact on the server. They continue to be a prominent and beloved group on the server to this day. Long may they reign!

Team origin story:

In a land far, far away, there lived a group of gooey boys known as the Eshat. These boys were special, for they had the ability to secrete a magical substance that could heal wounds and even bring the dead back to life.

The Eshat were scattered throughout the land, each living in their own distant kingdom. But one day, they received a message from the great Drake statue, a sacred monument created by the gnomes.

The message was delivered by a player named Caffeine, who had traveled to the land of Dragonstone after creating the beautiful Drake monument. He spoke of a powerful force that was calling the Eshat to come together and form the strongest team ever known.

The other founding member of the Eshat was Void Cow, who had come from a distant planet where he had ascended to great power by smoking a mysterious substance called "zaza" with an ex-leader of the United States of America, Thomas Jefferson. Void Cow had been granted mystical powers by magic wizards, and he was eager to join forces with Caffeine and the other Eshat.

And then there was Finn_Mcool, whose claim to fame was defeating a herd of mutant melons in a dance-off using nothing but a kazoo and a rubber chicken. Finn had an uncanny ability to turn potatoes into pogo sticks and had once convinced a group of llamas to form a llama choir that exclusively sang sea shanties.

Together, Caffeine, Void Cow, and Finn McCool journeyed to the mystical land of Dragonstone, where they founded the Eshat team. From that day on, they worked together to bring justice and righteousness to the world, using their powerful secreting abilities and mystical powers to help those in need.

And so, the story of the Eshat team began, an epic tale of friendship, bravery, and the power of teamwork

Members:

VOIDcow:

VOIDcow was just a normal being on the planet of Tun. He often spent his days meandering the world and gazing over the cliff face into the unknowable nothing, pondering the shallow existence he currently inhabited. This all changed when one day, a group of the most wizenous wizards descended from another planet, seeking out VOIDcow for his exceptional potential. It is rumored that Greg12_ may have been amongst the group of wizards.

The wizards gifted VOIDcow with unknowable powers of consumption, imbuing him with the ability to absorb and assimilate other beings into his own being. At first, VOIDcow was hesitant to use his newfound abilities, but he soon found himself facing a formidable threat: a group of large men known as The Lard Meisters.

The Lard Meisters sought to turn VOIDcow into a barrel of lard, using their own powers of consumption to try and absorb him into their ranks. However, VOIDcow was determined to use his powers for good, and he fought back with all his might. After a long and grueling battle, VOIDcow emerged victorious, using his magic to assimilate The Lard Meisters into his own being.

Following his triumphant victory, VOIDcow was invited to attend Thomas Jefferson's own birthday party, where the two famous men smoked weed with aliens and ascended to a higher plane of existence known as Dragonstone. It was here that VOIDcow formed the group known as Eshat, Virtual Shitters, bringing together a team of skilled and talented players to explore the mysteries of this strange new world.

And so, VOIDcow's journey as the leader of Eshat began, a journey that would take him to incredible heights and unimaginable depths as he explored the vast virtual world of Dragonstone.

Now, VOIDcow is the leader of the Minecraft team known as "Eshat, Virtual Shitters". He is a skilled player who is known for his signature weapon, the True Void Bow. This powerful bow is capable of

firing void arrows that can deal massive damage to mobs and players. VOIDcow is known for his strategic use of the True Void Bow in battles and his ability to take down tough opponents. In addition to his proficiency with the bow, VOIDcow is also known for his leadership skills and his ability to coordinate and guide the members of Eshat. Overall, VOIDcow is a formidable opponent and a valuable leader for the team. Long may he reign!

CaffeineGo:

Caffeine was a skilled Minecraft player, known for his bravery and cunning in the virtual world of Dragonstone server. He had spent countless hours exploring the vast landscapes, fighting fierce mobs, and crafting powerful weapons and armor.

One day, Caffeine stumbled upon a group of gnomes deep in the forest. They were small and mischievous, with silly names like Hoobly Boobly, Greg12_, and Keister Meister. Despite their playful appearances, the gnomes possessed great knowledge and taught Caffeine the ancient scrolls that described a powerful drake statue.

The scrolls spoke of a sacred monument that would bring great power and protection to those who built it. Caffeine knew that he was destined to construct the drake statue, and he set out on a journey to gather the materials and tools needed for the task.

The building process was long and grueling, but Caffeine was determined to see it through to the end. He worked tirelessly, pouring his heart and soul into the project. The gnomes watched in awe as Caffeine crafted each intricate detail of the drake, admiring his skill and dedication.

As the statue neared completion, a dark shadow fell over the land. A horde of fierce mobs descended upon the forest, intent on destroying the drake and claiming its power for themselves. Caffeine and the gnomes knew they had to defend the statue at all costs.

The battle was fierce and violent, but Caffeine was a skilled warrior. He fought with all his might, slicing and dicing his enemies with his enchanted sword. The gnomes fought alongside him, using their quick reflexes and cunning tricks to distract and confuse the mobs.

In the end, Caffeine and the gnomes emerged victorious. The drake statue stood tall and proud, a testament to their bravery and determination. Caffeine returned to his gnome family, hailed as a hero and greeted with cheers and hot dogs. The drake statue remained a beacon of hope and strength for all those who ventured into the forest, and Caffeine was forever remembered as the brave Minecraft player who built it.

Today, Caffeine is a mysterious and mischievous Minecraft player known for his absurd creations and actions on the Dragonstone server. Along with his group of friends, known as Eshat, Caffeine spends his days causing chaos and playing pranks on other players.

Despite being an occasional builder, Caffeine is known for his hatred of many things. It is said that he has a long list of things he despises, including but not limited to: overcooked vegetables, long

crawls on the beach, and players who refuse to share their resources. Despite his grouchy demeanor, Caffeine is a beloved figure on the Dragonstone server, known for his slow wit and dull sense of humor.

In addition to his antics on the server, Caffeine is also an unsung hero to the Dragonstone moderation team. It is rumored that he has discovered numerous glitches and exploits on the server, yet has never received credit for his efforts. Some say that he uses this knowledge to pull off even more elaborate pranks and jokes on his unsuspecting fellow players.

When he's not causing mischief on the server, Caffeine can often be found indulging in his two great loves: gooey slimy nips and hairy meat. It is said that he has an insatiable appetite for these delicacies, and will stop at nothing to get his hands on them.

Caffeine is also known for his not so impressive combat skills, wielding a weapon known as the angelic axe with deadly precision. His sexiness and powerful position among the virtual shitters on his team only add to his formidable reputation on the Dragonstone server.

Overall, Caffeine is a creamy and beloved figure on the Dragonstone server, bringing laughter and mischief to all those around him. Though he may seem gruff at first glance, he has a heart of gold and is always willing to lend a helping hand (or block) to those in need. So if you ever find yourself on the Dragonstone server and see a player wielding the angelic axe, be sure to watch out for Caffeine.

Finn__Mcool:

Once upon a blocky time in the world of Minecraft, there lived a player named Finn__Mcool, a true legend in the land of absurdity. Finn was part of the most peculiar team known as "eshat" (which stood for "Epic Society of Highly Addled Turtles"). This motley crew of Minecraft enthusiasts had a reputation for their bizarre antics and absurd adventures that left other players scratching their square-shaped heads in bewilderment.

Finn__Mcool's story began in the quaint Minecraft village of Spudsville, where he was known as the village's eccentric potato farmer. He had a knack for growing potatoes of all shapes and sizes, from tiny tater tots to colossal spuds that could rival the size of a tree trunk. However, his life took a decidedly peculiar turn one fateful day when a meteor made entirely of cheese crashed into his farm. It created a massive crater filled with molten cheese, instantly transforming his once-idyllic potato farm into a surreal cheese paradise.

Finn, with his whimsical imagination, saw this cheesy catastrophe as a sign from the Cheese Gods themselves. He decided to abandon his farming life and embark on an epic quest to find the mystical Cheese Sword, rumored to be the only weapon capable of defeating the evil Dairy Dragon that supposedly lurked deep within the Cheese Caves, guarding the Cheese Throne of Legend.

Equipped with nothing more than a wooden spoon, which he affectionately named "Cheesemonger," and wearing a cheese helmet that doubled as a snack dispenser, Finn__Mcool set

out on his epic journey. Along the way, he encountered a series of wonderfully weird and wacky characters and creatures that only the world of Minecraft could conjure.

First, he stumbled upon a herd of talking cows that roamed the lush, cheese-drenched fields. These wise bovines offered Finn sage advice and told him tales of the great Cheese Wars that once rocked the land. With their guidance, Finn learned the ancient art of "Cheesemancy," a mystical cheese-based form of magic that would prove invaluable on his quest.

Continuing his journey, Finn encountered a village of cheese-loving villagers who believed he was the Chosen Cheese One, destined to bring about the "Age of Gouda." They threw parades in his honor, built cheese statues of him in the town square, and showered him with gifts of rare cheeses from across the land.

In his travels, Finn_Mcool also befriended a curious chicken named Cluckles who had an inexplicable obsession with disco dancing. Cluckles would often break into spontaneous dance moves, leaving a trail of sparkling feathers in his wake. Finn and Cluckles would dance their way through perilous dungeons and caverns, with Finn using Cluckles' rhythmic distraction to outmaneuver enemies and discover hidden cheese caches.

Finn's adventures with the eshat team were equally absurd, and their escapades were the stuff of legends. They once constructed a roller coaster that defied all laws of physics, careening through twists, loops, and fiery hoops before plunging headfirst into a pool of lava. Naturally, they claimed it was the "hottest water park in Minecraft" and invited players from across the server to experience their fiery folly.

In another instance of their zany creativity, the eshat team attempted to domesticate wild llamas by teaching them interpretive dance. They believed that llamas had an untapped talent for expressive movement and that they could create the world's first llama ballet troupe. The result was a hilarious and chaotic spectacle as llamas gracefully leaped and twirled across the landscape, led by Finn's enthusiastic, if somewhat misguided, choreography.

But perhaps one of their most memorable adventures involved their efforts to convince a group of enigmatic creepers to join a musical band they aptly named "The Exploding Tunes." While many would consider creepers to be volatile and dangerous, Finn and his team saw untapped potential in their explosive nature. They handed the creepers musical instruments made of obsidian and redstone and organized wild concerts where the creeper band would perform explosive tunes that lit up the night sky in a dazzling display of pyrotechnics.

In the end, Finn_Mcool never did find the elusive Cheese Sword, and the Dairy Dragon he sought to defeat turned out to be a misunderstood creature who simply yearned for someone to play chess with. The Chess Dragon, as it came to be known, challenged Finn to countless games of chess, each match more epic and cheese-filled than the last.

But that didn't matter to Finn and the eshat team, for they were too busy enjoying their silly, cheese-filled adventures in the wacky world of Minecraft. As they continued to create chaos and laughter wherever they went, the legend of Finn_Mcool and the Epic Society of Highly Addled Turtles lived on, inspiring players far and wide to embrace the joy of absurdity in this blocky realm.

of infinite possibilities. And so, the Minecraft world remained a place where the line between epic quest and comical caper was delightfully blurred, thanks to the enduring legacy of Finn__Mcool and his peculiar band of adventurers.

ZigzagZucchini: In the enigmatic world of Minecraft, there resided an entity unlike any other, known as ZigzagZucchini. This peculiar being hailed from a distant dimension, one filled with sentient vegetables and quantum cucumbers. You see, ZigzagZucchini wasn't your ordinary Minecraft player; they were a time-bending, space-hopping vegetable with an appetite for adventure.

The legend of ZigzagZucchini began when they, as a humble zucchini farmer in their home dimension, decided to master the art of vegetable juggling. But in an unexpected twist of fate, ZigzagZucchini's zucchini juggling went awry when they slipped on a banana peel that had been misplaced in the space-time continuum. This cosmic mishap catapulted them through the fabric of

reality and into the blocky world of Minecraft.

Upon arriving in Minecraft, ZigzagZucchini quickly realized they had acquired unique powers due to their quantum nature. They could bend reality itself, turning any block they touched into a giant, levitating zucchini or making entire mountains do the cha-cha-cha. Armed with a magical spaghetti lasso that could lasso inanimate objects and give them the ability to dance the samba, ZigzagZucchini set out on an epic adventure across the pixelated landscape.

Their journey was filled with zany encounters, from turning pigs into disco-dancing porcupines to hosting vegetable-themed parties for the local villagers. Legend has it that ZigzagZucchini once transformed an entire forest into a sprawling vegetable garden, complete with talking carrot statues and a celery slide.

Despite their cosmic origins and perplexing abilities, ZigzagZucchini was a friendly presence in the Minecraft community. They spread laughter and confusion wherever they went, embracing the nonsensical nature of their existence. And so, ZigzagZucchini became a beloved legend in the world of Minecraft, reminding players that sometimes, the most entertaining adventures were the ones that zigzagged through the realms of absurdity.

BananaNinja007: In the pixelated world of Minecraft, where every player had a unique story to tell, there was one player who stood out as both mysterious and utterly bananas – BananaNinja007. BananaNinja007's tale was as bizarre as it was epic, tracing its origins back to a secret banana-obsessed order of ninja warriors.

The story of BananaNinja007 began in the hidden Banana Monastery, nestled deep within the Banana Mountains. This secluded order was dedicated to the art of stealth and banana-based combat. From an early age, BananaNinja007 showed unparalleled talent in wielding the sacred Banana Blades, which were said to be forged from the legendary Golden Bananas of Enlightenment.

BananaNinja007's training was intense, involving rigorous sessions of banana peeling, silent banana crunching, and the infamous "Banana Shadow Dance." They could vanish into thin air, leaving behind only the scent of ripe bananas and a trail of slippery peels that confounded their enemies. Their banana-based weaponry included the "Nana Shurikens" and the "Peel of Paralysis," which could immobilize foes with the power of potassium.

One day, a mysterious prophecy emerged within the Banana Monastery, foretelling of a player from a distant realm who would unite the banana clans and bring potassium-rich justice to Minecraft. BananaNinja007, sensing their destiny, decided to embark on a journey to fulfill this prophecy.

Armed with their trusty "Nana Chucks" and a banana-themed ninja mask, BananaNinja007 set out on a quest across Minecraft, seeking to unite banana-loving villagers and thwart the nefarious plans of the "Moldy Mango Clan," sworn enemies of the banana warriors. Along the way, they encountered banana bandits, melon marauders, and even a rogue apple orchard that needed some potassium-infused persuasion.

With each encounter, BananaNinja007's legend grew, and they became known as the "Peel-Stealth Warrior of the Pixelated Plains." They fought battles with banana bread boomerangs and defended banana-themed temples from the dreaded "Fruit Salad Syndicate." BananaNinja007's adventures were a whirlwind of fruity frenzy and ninja nonsense, and their legacy in the Minecraft realm was a testament to the power of potassium and the art of banana-based combat.

PixelPickleJester: In the whimsical and wacky world of Minecraft, there was a player who embodied the spirit of jest and pixelated pandemonium – PixelPickleJester. PixelPickleJester's backstory was a tapestry of zany adventures and uproarious antics, making them one of the most eccentric players in the blocky realm.

The legend of PixelPicklejester began in the heart of the Cubic Circus, a mystical place where everything was a performance, and laughter was the most valuable currency. PixelPicklejester was born into a family of jesters and circus performers, where their very first words were a punchline, and their first steps were a pratfall.

From an early age, PixelPickleJester displayed an uncanny ability to turn ordinary moments into sidesplitting spectacles. They juggled with anvils, rode unicycles on tightropes, and had a knack for making chickens participate in slapstick comedy routines. Their signature move was the "Pixelated Pickle Parade," where they would parade through villages, tossing pickles to villagers and turning even the grumpiest of NPCs into giggling jesters.

One day, PixelPickleJester stumbled upon a peculiar pair of pixelated pickles while mining deep within the Minecraft world. These pickles were rumored to possess the power of pixel manipulation, allowing PixelPickleJester to reshape the very fabric of Minecraft reality. Armed with the "Pickle Pixels," they set out on a quest to spread pixelated pandemonium throughout the land.

Their adventures were a riotous mix of pixel pranks, including turning entire mountains into pixelated roller coasters, organizing llama stand-up comedy nights, and convincing mobs to participate in elaborate dance-offs. PixelPickleJester once transformed a river into a river of rainbow-colored pixel paint, where boats became pixelated paintbrushes, and fish turned into pixelated painters.

PixelPickleJester's presence in Minecraft was a perpetual carnival of chaos and comedic calamity. They brought joy and laughter to players from all corners of the blocky world, reminding everyone that sometimes, the silliest adventures were the ones that left you in stitches. And so, PixelPickleJester became a beloved legend, a pixelated prankster whose legacy in the world of Minecraft was as colorful and chaotic as the pixels themselves.

Player Overview:

Annie:

Annie is the leader of Eterna, founding it after infinite was laid to rest. Annie is a hardworking and skilled builder, with her achievements not only being within the core Eterna bases, but as well as the server. She is a kind individual, not causing problems, and if she ever were to run into one, her subjects would quickly dispose of it.

Annie's contributions to the server have mostly been shown, while other projects they are working on are soon to be released. Annie has been a huge help and wonderful builder with immaculate attention to detail as well as a crisp and creative building style. Every build she has lead has always came out above expectation.

Aside from direct server contribution, she contributes to her kingdom as well. She only seeks destruction when absolutely necessary, and always has a kind and gentle heart to their friends.

Tartaglia:

Tartaglia, or Dummy, is the harbinger of Eterna. He received this position shortly after meeting Annie, as they became quick friends. Tartaglia often handles diplomacy and war, killing those who pose even a minor threat or has previously harassed the group.

Breaking news while exploring the new world of dragonstone I have discovered thanks to the lead expeditionary expert Nobody4831 a monument to the ancient power of the sea dragons. The sea dragons where known to roam the seas feeding on the local fish in the ocean. This monument was most likely built by an ancient people who worshiped the sea dragons for their great power. Sea dragons are rare to see so far however, rumor has it they can be spotted in the great oceans of dragonstone under a full moon as they glow a bluish and greenish mixture. This phenomenon is rare to see but is worth it for many and I plan to do more research on these strange creatures whom annoy me but peek my interest... That is all for todays new dragonstone broadcast stay tuned for more fun information about dragonstone and its mysteries.

December 23rd, 2021

Hello, welcome back to dragonstone news today we will keep this broadcast short and simple. We would like to thank the dragonstone engineer team as well as nobody for their hard work on the construction of the very first mobile dragonstone news blimp. At the moment we have set up "shop" at the shopping district that was forged by the great dragonstone staff team and known experts who helped in the design of the new shops. With the shopping areas open now we can expect a large increase in trade value and a good place for a social area for the people of dragonstone to enjoy one another while shopping for items they need. That's all for now but when we return we will talk about the need for improved trade routes as well as the health and treatment of prisoners in dragonstones jail system thank you and have a good day.

December 25th, 2021

We here at dragonstone news would like to wish you all a merry Christmas and hope that everyone is doing well. So merry Christmas, happy Hanukkah, happy holidays, and of course happy New Year's Eve. Don't forget to keep your lights on and watch out for santa and all his lizar... I mean his reindeer who are on the way.

Welcome back today to dragonstone news. To start off tonight's news report trade routes are starting to be forged thanks to dragon co. Your one stop dragon delivery service for much needed supplies. Thanks to the trade routes dragonstones economy has been in good health however, reports or bandits and pirates have been spotted near some of these trade routes. So far no action from these parties has been done to the trade routes or those that use these routes for transport. Dragonstone militia has already been formed in response to these growing threats including but

not limited too hired mercenary help. Hopefully this will keep those trusted traders safe from harm and keep our resources secure as well. In other news we have just learned recently that dragonstone does not have a Dragonstone osha approved prison system. Prisoners that are sent to the current dragonstone prison have no beds, food, water, or anything besides a view of spawn. Some people have started protest about this demanding that prisoners be given beds and resources to at least survive prison sentences. Others however encourage that the prison system does not need these resources due to the fact that prisoners are criminals and should be treated as such. It is unknown if the prison system will receive these needed upgrades or if they will continue with the current system they have now but we for this reporter I'm just glad I'm not in the jail system. That's all for now thanks for tuning in today and when we return we will have more news about current weather patterns as well as new information. Thank you all and have a good night.

Welcome back today to dragonstone news. Have you felt a since of inner strength over the past few weeks? Do you feel like you can just demolish anything without feeling tired? Then you have experienced the Haste III world potion affect for a very long time now. Many of you know how this great world potion was put into effect but for those that do not know the world potion effect is a server potion that effects all players when either gained from 10 player votes from the server or by purchasing it through dragonstone donation center. We have been blessed by many of you here and want to thank a list of players for their donations thanks to the list dragon has of course. Thank you Norse, Nobody, Mentos, Alpha Wolf, Filvren, TheflyingPengP, Balagadoo, Rotanova, and Morgan for you donations to this servers haste III. If you or anyone you know is interested in supporting dragonstone by all means check out /donate on the server. In other news there seems to be a cold front coming in from the north toward dragonstones spawn be advised to wear warm protective gear since temperature will only reach a high of 32F these next few days. That's all for today we thank you for tuning in and as always have a good night.

Breaking news reports of a robbery has been committed at coolham123's spawn home. For those that don't know who this is he is a admin of dragonstone. the person found stealing said diamonds was in a shocking reveal another staff member known as Reupic. At this live moment we are seeing Reupic and Coolham ban one another from the server more info will be posted after learning more from event.

January 18th, 2022

Hello there and welcome back to tonight's broadcast of dragonstone news report. Tonight we start off with some delayed news that had been put off do to certain events. There has been a large movement that has shown up recently of some of the citizens of dragonstone worshipping dragons. It is unknown how this started but what can be confirmed is that this spiritualist group worships dragons through blood sacrifices. Studies have shown that this spiritualist group of dragon worshipers are not hostile to those that follow their faith however, for those that do not follow their faith seem to treated as heretics and purged on sight. Some people of dragonstone have shown their support toward the worship of the dragons as a sign of respect toward the night beast. Others

on the other hand have been arguing that worshipping dragons is dangerous and a problem on dragonstone. So far there have been only minor hostilities from these two groups but due to this spiritualist movement other spiritual movements have been discovered as well over the past few days such as the void worshipers. Rumor has it that these void worshipers fight the dragons in the void by destroying the very land that is inside the void. Many of you might be wondering what is the void? How do we always end up inside this strange place? It is unknown to many which is why a research team in dragonstone has started development of a research program to study the void so that we can better understand it. In other news we here at dragonstone news are seeking advertisements as well as sponsors for dragonstone news if you wish to post your own advertisement just contact dragonstone news for more information on how you can advertise your product on dragonstone news. Now we move on to this weeks weather right now there has been some cold temps but it looks like things will Stuart to warm up in the next few days with only mild showers of rain later during the afternoons. Thank you for tuning in see you next time.

January 21st, 2022

Hello and welcome back to dragon stone news today we have made an alarming research discovery. Our research team at site beasts claw have discovered as one of our researchers has stated "Earth dragons everywhere are mlemming over the discovery of a dark block in the nether with shiny things inside, that when applied to dragon scales which can help to harden them very quickly." It is unknown as to what this will mean for the dragons but one thing is for sure our research team has requested that the dark block be gathered to an offsite location for further site. That's all for tonight's research team news. on another note dragons are turning people into lizards reports of people being bitten have started to show signs of dragonism its unknown why this is happening but for those who wish to avoid this turn of events or wish for a cure stay away from any dragons and don't make deals with them no matter how tempting they may make a deal for you unknown side effects and events can occur from making deals from dragons so be cautious. that's all for tonight thank you for tuning in and we look forward to seeking you all next time.

January 29th, 2022

Hello, and welcome back to dragon stone news. Today I speak to the hearts and minds of the citizens of dragonstone no matter where you come from or where you align your self I ask you to hear what we our about to propose. I would like to propose the very first Dragon stone Overworld Senate (the name of the senate can be created if we get enough support for this project). This Senate would create laws based on economics, Research projects, Military, Administrative, and other worldly laws that may be need to be created in order to establish a united dragonstone that can improve its resources and connected many different clans into one united front. If you are in support of this vote with the check mark if you wish to not support this senate then click the X mark. Those that support this operation will want to help aid our lead builder or at least give supplies needed for this build to nobody4831. If you have any other questions contact iron through dm. Thank you all and have a wonderful day here on dragonstone.

February 7th, 2022

Hello there and welcome back to dragon stone news I'm your host iron and today we have a few things to cover. First weather conditions for this week have shown to be a little warmer at a good temp of 42 F as the high and the low will only be 37F not to bad weather as things start to finally warm up on dragon stone. As the weather warms up crops are expected to have a good bounty of plentiful growth period for the next month. In other news construction for the new dragon stone over world senate building has been given the green light and a construction team is on route to begin the major project. When this senate building is complete we hope here at dragon stone news it will be a symbol of law and order on dragon stone. Now to a Research report from Remnant research station 03. Research team 03 lead by professor Lux Sphaera have discovered a new source of odd slime. The professor stated in a discussion on the matter that, "The slime is a strange thing it is slick but yet when poked with a sword per example becomes hard as chainmail armor." This new discovery could be used in other ways as well the professor states that slime has other properties and could even be useful in medical research and should be sent to research station 01 for further work. However it is unknown where the professor has gathered this strange slime all he will say is that it came from a void of unknown origin. Well we wish you luck professor in your work to help dragon stone. On a final part of today's news report as of this moment the search for Dave is still on we have not give up on our trusted old friend who has been a great help here at dragon stone news and will hope for a clue as to where he is soon so that we can bring then home. We thank you all of course for tuning in to dragon stone news and hope to see you all soon.

February 8th, 2022

Hello there and welcome back to dragon stone news. Today we start off with an overview discussion on dragon stone UHC. What is dragon stone UHC? Why should I care about dragon stone UHC? And what does this mean for dragon stones future? UHC is by far an exciting event that pits players against each other like a hunger games however dragon stone likes to use special items in their UHC. In the past there are lucky block UHC (which you can look up what a lucky block is if your curious) and magic wands full of different powers. These items were used in the past to make these events interesting. Usually whoever one in the top three places of first, second, or third would receive interesting loot. Now you are probably wondering why should I care I have to much to deal with such as building my home, exploring dragon stone, hanging out with pals, fighting dragon invasions, or etc. we'll look at it this way if you take part in dragon stones UHC you end up getting loot, playing with your pals in team events, fighting a dragon (maybe), and you can build a house if you feel like or play by your own style in Dragon stone UHC. If you like what you have read so far then Dragon Stone UHC is just for you. **Warning not responsible for broken friendships, Lag, Random Dragon stuff, broken limbs, diseases, damaged mental state, Death, and strange bugs during event.** We do hope you will join us for the event when it's ready and we look forward to your success during this awesome event.

Man these guys are really desperate for loot if they do this I mean come on no one in their right mind would put themselves in harms way for loot. What? Wait we are still on? Oh.... Go to commercial!

☐When your feeling hungry for a dragons feast get a dragon crunchy bar at your local store.☐ They are delicious and approved even by dragons to be healthy for those youngsters at home so come on down and get yours before we run out.

February 11th, 2022

Hello and welcome back to dragon stone news i am your host Iron. Today we start off with a lab report from research lab 03. After complaints about fair treatment to professor Lux Sphaera for his research on the strange slime in his lab. It has been proven that the slime is sentient therefore it will receive as requested by shady the slime that the slime in the lab will be given one meal a day, payment for past experiments, payment for future experiments, and will be treated as sentient life which means no harm will come to said slime. The research on the slime armor will decrease in time due to this development but we are sure that the slime will be safe and the people of dragon stone will be happy for the choice made today. In other news development for UHC is progressing well reports of a perfect spot of land has been discovered as the perfect UHC area for contestants to participate in when the event is open. It is unknown when construction will be complete but we have high hopes here. Now to move on to isi&:'I ?:&&

Hello there and welcome back to dragon stone news today we like to wish you all a happy dragon heart day (Valentine's Day for none locals) we hope that many of you are keeping good friendships and strong bonds as always. I personally want to thank all of you and wish you all a happy dragon heart day have a good day and don't forget to wish those you care about a happy dragon heart day as well. Well that's all for today nice and short. Thanks for tuning in see you next time also patch odd breach in system nothing seems damaged so all good nothing to worry about here.

February 19th, 2022

Welcome back to dragon stone news tonight has been interesting to say the least... well then lets get to it shall we. The dragon stone Senate (subject to change name later on) has already founded some of its members. The work on the Senate Hub is underway and has been going well so far thanks to lead efforts of Annie. In other news tonight weather patterns seem to be normal and there has been a increase chance for rain in the coming week. That's all for tonight thank you all for tuning in and have a good night.

What? What do you mean there is more? ALRIGHT! Fine apparently someone messed here and forgot to add the other paper work Cant find good help these days really need Dave... Awww come on don't walk away and pout I did not mean anything by it... Bagh! Anyways I want to also announce there is an exciting event coming around the corner do you like dragons? Are you seeking Adventure, Fun, Love, Friendship, Betrayal, War, Quest, Smoothies? Then look no further than "Pure Chaos" A dungeon and dragons group ran by Itm77 and tagz. It is a fun game I would

not mind playing it myself after all it is something new and interesting to try out but, don't take my word for it go ask them about how you can join up in the fun and see for yourself if you enjoy the wonders of this great game. Alrighty thank you all for your time now good night and that is all the messages without a doubt for tonight so thank you and good night. (also if anyone knows how to wright an apology letter let me know I am in hot water with my news team here it seems...)

Hello there fellow dragonstone community today marks the dawn on a new day for dragonstone. After a a lot of terraforming the world of dragonstone has changed. At the moment there are not that many civilizations here at all only a few small camps or settlements at the moment. Many of the people of dragonstone have already started setting up traveling stations to camps near the protect draconian barrier that is protecting the people while our science team scans for any anomaly's in the area. In other news the dragon egg hunt has been a fruitful event bringing many old and new citizens of dragonstone have arrived here so far here we look to the future for dragonstone as well as hope for a new chapter full of life, adventure, and lore.

June 28th, 2021

Hello today we bring you a report on today's weather it will be mainly sunny with a small chance for thunderstorms around 7pm eastern time. There have been reports of new discovery's from our mob research team here at dragonstone explaining about strange spawners with a hidden secret. More details will be shared later on. Also we would like to take this time to thank the donators of dragonstone for their grand donations here at dragonstone they have made this place breath life for a good while and have now given dragonstone the energy it needs to keep pressing on to a new horizon. This is Iron and we thank you for reading the report for today. (Ps still looking for DAVE)

breaking news tutorial dungeons are opening tonight it seems there will be more info today. Also iron broadcast might happen to answer questions on what is this tutorial dungeon.

July 20th, 2021

Hello there and welcome to today's dragonstone news report. Today's weather has been interesting so far this week but we expect there to be light rain showers later this evening. Humidity is at a 6 at the moment with a temp being 79F. In other news reports of the dungeon tutorial has gone successful. This is good because to be honest we need people who are able to go into a dangerous situation. You see dragonstone has its own military power which we have tried to use to save Dave and the dig site team however we have had no luck in this matter. That is why with a heavy heart we seek help from the citizens of dragonstone. That's right we are recruiting as many people to head out to these locations to help us figure out what on dragonstone is going on with this dig sight and why we have had no success in finding the people we have lost contact with. (On a side note we have discovered that this so called material we have found from some of the undead known as undead essence seems to be useful in creating some new "toys" for us to use in the field of combat.) We are also looking into who had been able to send a broadcast through the dragon stone news center and find out what exactly they want.

Hello there its been a long time but i believe it is time to get back to some good old fashion reports from across dragonstone. Today we are starting off with a small informational recruitment

advertisement from the Reach. The Reach is a group of over 4 dragonstone citizens who have managed to gather and create a peaceful society for anyone willing to help grow their community. I did a short interview with one of the citizens there which people may know this individual as Sovker. Sovker is one of the Reach's main town guardsmen and executioner who says the Reach was first founded around the month of June during dragonstone's recreational time zone. The Reach does not have that many enemies and the Reach is full of life, agricultural farmlands, a harbor, plenty of resources, and good community. The only downside to The Reach is that they on occasion have as Sovker put it "idiots" who come to raid them other than that they are a prime example of an outstanding community who seeks people willing to make a difference on dragonstone. If you wish to join this community talk to Sovker for more details on how you can join the Reach a better future as a family. Thank you for tuning in today when we return we will go over reports of the adventurers who have managed to scout out areas of Dave's Location.

Breaking news the kingdom of Reach and the kingdom of the Franks have formed an alliance strengthening both groups in commercial trade, as well as military strength. It is unknown how or why these two groups formed an alliance but one thing is certain whatever may happen progress for the people of dragonstone's development has grown. We will keep a watchful eye too see what will come from this new alliance and how it will effect the people of dragonstone in the long run...

Hello there and welcome to Dragonstone news. It has been a good amount of time since we had good old talk by the fire. I would first like to start off with saying how good it is to be back and somewhat operational for the time being. Details on the matter are still unavailable for certain reasons however but rest assure that all is well for this news broadcast. Now for tonight's first bit of information. It seems the many of the shops in dragonstone have closed down. This would cause concern for the people of dragonstone since without these shops trades between one another could become dangerous due to bandits and other veil problems that are still plaguing dragonstone and her people. However there is some good news some shops that are somewhat new and ready to take up the challenge of selling the finest things from across the world to the people of dragonstone. These shops and people are not limited too but are worth checking out for great deals and all you could need. "The new icy island, named Thieves' Hollow, a tavern-esque establishment constructed inside the Ice Maw Mountain, is ran by Rota, with the aid of Zikkyy and DoofleBoi. The quarry island is ran by King of Cringe, with Harbinger as his ally. These two shops have replaced the old shops in dragonstone known to many as Dwarf's tower, and Chef's tree." In other news reports of a strange anomaly has been spotted in the nether, the end and in the void. This anomaly is being researched by a group known as the "Peoples Republic of Dragonstone" these people are still new to me so I will have to learn more on them but from what I can gather so far they seem to be popular to the hearts and minds of the citizens of dragonstone. Im afraid that is all the time we have for tonight but we do plan to broadcast more thank you all for your time and we wish you a wonderful week.

To the people of dragonstone welcome back to dragonstone news. Today there have been some exciting new events happening across the server. First the dragonstone council are in debate on a new resolution known as the Natural sanctuaries act. This act of passed will provide a natural peaceful park to be constructed full of life where citizens of dragonstone can go to escape from their troubles. However this will of course require the dragonstone industrial side to decrease its production of aether research in favor of natural parks. In other news the dragonstone discord has record a mighty new A. I. Upgrade to the the musics and fine arts upgrades to help improve culture of music for the people of dragonstone. That's all for now but when we return we shall talk more about dragonstones research division and what they are doing to help improve dragonstones understanding of the world we live in.

March 28th, 2021 Part 1

Hello this afternoon is a new dawn for the dragonstone news I'm your host iron I'll try to keep you up to date with all that we find out here on dragonstone news.

March 28th 2021 Part 2

Welcome tonight we have some interesting and for some people this is uplifting news. At dragonstones jail/poor behavior process center district prisoner 0833 was release 2 days early of their original jail time due to good behavior. Reports from the district say that when prisoner Ehaa.godsent was released that were very thankful. They had thanked dragon saying, "DRAGON YOU ARE THE BEST." Here's hope that all goes well for Ehaa.godsent and that they stay out of trouble and enjoy their time on dragonstone. In other news the uhc was a outstanding event tonight with the winners for this match turning out to be with a somewhat of a surprise for some to be farthole, inconvenientname and metoocool's team. Thank you for sticking around tonight for the night report take care and safe travels to you from us here at dragonstone news.

March 29, 2021

Welcome to this late afternoon report with your host iron. Today on dragonstone news dragon and his council of admins plus one mod had taken action to the security of the dragonstone nation by improving ban reports in a whole new way. When asked on the matter of how and why ban reports was updated to this new format Dragon responded with, "It saves staff a lot of work, but there are still a couple bugs that need to be **ironed** out." On out of this world mystery reports of dragonstone some players such as Sovker have wondered why bren does not speak or interact with the dragonstone population. Perhaps he is just a bot, maybe he is shy, or it could be that he is a mute. Dragon commented on this saying that, "He is a being from another dimension who rarely visits our world." Who can say for sure though what we do know is that the man is an enigma. On a final note for this afternoons dragon stone news weather reports show a 60 percent chance of rain in the north eastern area of dragonstone. This also includes thunderstorm warnings so stay safe and make sure to wear your rain coats have a good one and we will return later tonight with more news.

March 30th, 2021

Welcome to dragon stone news tonight we will start off with a weather report. The humidity on dragonstone has increased today with the weather reaching a high of 81F with no much rain. For those in the south western areas of dragonstone be advice for those tornado watch we will keep you informed if there is a tornado in your area. In other news dragon has announced what seems to be another project to create Gate ways to other dimensions. Scientist here at dragonstone believe

this would be a good chance to grab new resources from other dimensions however some fear that opening these portals could lead to unknown consequences. Also we here at dragonstone do not mind having sponsors or even debates on the server as long as it is kept clean so if you need to sponsor or just give us some news let us know if your interested. Thank you for reading tonight's short news and we hope you have a good night take care.

April 1st, 2021 Part 1

Breaking news early morning reports and transmissions have shown us that dragonstones ai as gone off the rails. When we revived the transmission is was just a faint voice soft and shallow until today it has evolved into something different. The ai origin of power and its reasoning of worshiping the void and darkness are still an unknown. All we know for sure is that it has managed to hijack most of dragonstone coms and is consuming everything bio mad and non bio. We here at dragonstone news are unsure of how this happened or why but we have a few theories on how this could be we will bring you more later this afternoon stay tuned.

April 1st. 2021 Part 2

Hello tonight on dragonstone we will have to keep this news report breif due to comun..... Reports of multipule portals have open up all over drago..... informed us that we have ai has evolved again and is planning too..... advised to prepare for warfare to protect all of dragonstone. Also DAVE LOOK OUT YOU DAMN FOOL ITS GOT THE..... COMS OFFLINE.

April 2nd, 2021

This is dragon stone news report we have managed to find a safe place to give our report on the ai that has caused strange events to happen to the dragonstone. First thing though is that we are ok for the time being Dave is resting that damn ai managed to do a numer on us but we shoudl be good. What we have learned so far which many of you may have noticed is that dragonstone had been sent to a dimmenison or maybe it was the past i dont know my memory is foggy on the details but what we do know for sure is that this ai has so far been contained by dragon and is staff team for the time being. Reports have shown that so far no one has been killed so far by this ai however i fear this ai is not done with us yet. Dragon and his staff team should have things under control and we should have nothing to worry about unless the ai somehow gains the power to open portals of its own.

Tonight here on dragonstone news we bring you a news update on the voting for the "iron broadcast channel" the votes are in and it seems that this Friday will be a iron broadcast day starting 9:00pm central. In other news last night reports have it that a group of players have managed to damage a dragon ward leaving it with 0 health left destroying the ward in the process. Due to this most likely dragon will be forced to do minor upgrades to these dragon wards and improve the wards warranty and factory production rate. On the lighter side of news reports have it that the weather tomorrow should be delightfully bright with warmer weather just arriving around the corner so make sure to get your sunscreen. Also from one of our sponsored MKA has reported to bring back its empire in full force the monarchy's leader Dwarf stated, "TheMadKing Is back and the people are in fear." Could this lead to more chaos on dragonstone or to a new world order for this mighty empire only time will tell. On behalf of dragonstone news we thank you for tuning in tonight and we will bring you more news later on tomorrow good night.

April 7th, 2021

Tonight on dragon stone news we bring you some light news. First we start off with the weather tomorrow's weathers patterns are showing a 60 percent chance for rain with thunderstorms. In other news there seems to a chance that deagonstone as we know it will change forever. What we know as dragonstone being semi vanilla has been it's calling card since the origin of its creation but with the creation of 1.17 dragonstone might become no longer a vanilla server. There is no need to worry if this happens however because dragonstone will not be using mods to change but rather create custom enchantments as well as maybe even new mob creations from dragons arcane mob workshop. Details are still incomplete and unknown but dragonstones future is still as bright as ever. One final note before signing off for tonight we here at dragonstone news enjoy sending out news reports and would like to hear from all of you about local news in dragonstone such as farming production, monarchy business, or even top secret staff info just send us some reports you might like to share with all of dragonstone and we will get your message out there. good night and stay safe out there.

April 14th, 2021

Welcome tonight we bring you an update on an agricultural project that has been going on in dragonstone. A player by the name of nobody and mentos had built a large wheat farm for players of the spawn community to use as a way to help the dragonstone empires people grow and not worry about hunger. It is advised though that if the farm is harvested it should be replanted. In other news reports of dragonstone explores have begun plans to chart what some are calling the "novae terrae initiative." This new exploration from what we have heard so far will take place in dangerous new territory of dragonstones protective barrier. There is little to no intel on what is out there but many believe there could be new rich resources that could aid the dragonstone

community. Also we like to take the time and say thank you to our staff team of dragonstone for all their hard work and that we wish them the best of luck with handling security in the future. That's all for tonight take care and stay safe from us here at dragonstone news.

This is where we sign off.

Dave just hit the shut off button... just here dab nab it your making us look bad.

April 23rd. 2021

Hello tonight we bring you news of rare sightings of corrupted dragons entering dragonstone. Dragon has informed all of dragonstone ground forces to stay clear of these lizards. War was declared on these inter dimensional creatures from an unknown realm. So far there have been small battles and sightings so far across dragonstone of these corrupted lizards. Dragon has

informed of a process for fighting these creatures using magic. if your unable to do so it is advised to use crossbow bolts. We must ask that you be careful and be aware of where you go in dragonstone so be careful out there and watch out for any corrupted lizards. (warning lizards are known for blowing things up, eating crops, livestock, and can be mischievous.

April 24th, 2021

Hello there tonight we bring you news on an agricultural project that has been created known as the gulag. Sovker has created this gulag as a farming community for new players, jailed players, or even old vet players to work in the potato fields to either earn rewards or to work of debts. When I was given the tour I was shown the latest state of the art potato farm facility in dragonstone. This potato farm from ruff calculations can supply over 40 percent of dragonstones population with much need food. So if your looking work Sovker wants you. (note you might have to pay with your soul to work for Sovker however I would ask them if you have more questions on this matter). In other news dragonstones MKA Special Project has shown major improvements however this project is still going to need more time before it can be released to the public. Tonight we seem to have light shower storms in the eastern sections of dragonstone so make sure to have a rain coat on or umbrella. We also sign off with a progress report of the corrupted lizards that have invaded dragonstone. reports have it that these lizards are capable of using stealth which there for means keep your guard up and always have a crossbow to deal with the lizards thick armored scales. We here at dragonstone news thank you for your time and wish you a good night.

April 27th, 2021

Hello there tonight we bring you news from the dragonstone archaeological team. Today's story of this archaeological teams advancements into this dig sight have been so far exciting. The team here had discovered a ancient ruins due to the mass destruction to a large amount of terrain the corrupted dragons left in the uninhabited section of dragonstones northern area. It is unknown as to why or how these dragons knew of these ancient ruins however what was found inside was interesting. There seems to be many crystals around these ruins. Lucky for us there seems to be one more main structure left to explore. We go live to Dave who has volunteered to join the archaeological team to broadcast the discovery live. Hello Dave it seem you and the team have made a grand discovery that crystal there seems to have grand power due to it floating care to comment? Dave you there? Hello? Dave where is the team? Wait Dave is that a console near the crystal? Dont touch that you fool you dont know what it will do! Oh Lord what have you done Dave. Dave get out of there now! You cant fight them all on your own. DAVE!!! Hades! get me a team down there now we cant lose them to whatever is down there hire us a team to explore the ruins now. I dont give a damn what it cost or who is foolish enough to go down there just make it hapepen Dave has something that i require plus he is the only person here that i can trust to help me in this blasted broadcast!

April 29th, 2021

short broadcast due to me gathering info on where daves cords are at. MKA wanted to share a sneak peak of something coming to a dragonstone server near you soon

Hello tonight we bring you reports of a short weather update on dragonstone. There will be a heavy amount of snow in the northern sector of dragstone. In other news the new expedition team is almost ready to go looking for Dave. Dave if you are reading this news report this does not count as overtime.

May 12th, 2021

breaking news the wheat farms near spawn have taken damage in other news 3 fishermen had the time of their lives near the dragonstone lake until they faced a evil force that attacked them in the middle of the night. it is unknown how long this creature will be near this lake but it is rumored that it only comes at night durring a full green moons light.

May 17th, 2021

We bring you a short broadcast today from dragonstone news we would like to inform our views that the long wait for news reports are over we will be doing are normal broadcast starting tomorrow night. Thank you for your time also news on Dave's situation we have managed to gather intel that there may be survivors of the archeological team that was lost due to unknown crystal or whatever the heck happened on that fateful day news on this will be brought to public knowledge tomorrow.

May 18th, 2021

Hello there we bring you a much needed news report for all of dragonstone to hear. It is time to give some information on classified Intel that we have managed to uncover so far. After the events of the first archaeological team MIA dragon was forced to send in another team this time however armed with weapons for self defense. The second archaeological team has uncovered an ancient structure that appears to be some kind of multi-phase portal structure. After an archeologist "accidentally" fell into one of the portals, he found himself in an unknown place that was overrun by monsters. He noted that the place was probably once habitable but not anymore, and that large swaths of land appear to be floating in the sky. He wrote down as much as he could about the fallen civilizations but could not stay long because the portal was decaying, and the monsters began to notice his presence so he had to retreat back through the portal. On his way back he grabbed something shiny off the ground, which we later determined to be a pristine Dragon Shard. We have no idea how a Dragon Shard ended up there, but it appears the influence of Dragonkind is spread much further than previously thought. We have called in a team of our dragon allies to help us airlift the entire structure back to Dragonstone for further examination. It will be a long journey back for the dragons, because of how large and heavy the structure is, we estimate it will take at least a few weeks before they return

May 20th, 2021

Hello here at dragontstone news we try to keep you updated with the news reports all across dragonstone. we start with some exciting news on a new casino has opened its doors to the public "Double or Nothing" many have already won and lost their fortunes here at this new grand casino. I

say go check it out and see if you can win it big or go home with a new bucket list of things you need to regather. In other news our science team here at dragonstone lab site 4 have discovered a strange bandwidth signal near the entrance of what we believe to be one of the locations that Dave had been at with the missing dig team. the signal is all garbled but we have managed to make out three words. "I LIVE AGAIN...". It is unknown as to what this means all we can assume is that Dave or one of the dig team members has managed to somehow make contact with us until we learn more we will keep on trying to improve the signal rescue plans are still being worked on.

May 23rd, 2021

Hello there welcome to dragonstone news today we have a lot to talk about so let's get started. First here is a look at the weather for dragonstone this Sunday. Temperatures have risen with a high of 94F and a low of 73F skys will be partly cloudy but we shoul not expect not much rain near the southern parts of dragonstone. In other news there are rumors that Mentos a common man of dragonstone has found his inner draconic powers and has proven to be perhaps worthy of becoming a full dragon. We would also like to now move on the a new topic the dragonstone news is always looking for local news and is willing to share information to the public such as advertisements, political changes of dragonstone, war information, farming projects, or anything else that can be found as news worthy info for the dragonstone community. On a final note for today's news we like to thank you all for listening in and if you have any questions or wish to assist in the above part of the news report please just send Iron a DM hours vary mainly the weekends only thank you and have a good day fellow dragonstone.

May 29th, 2021

Hello tonight we have some news on new clan that has been created known as the The Valleyian Kingdom there purpose it seems is to create order and help resolve the endless fighting and raiding across dragonstone. This new kingdom will have a lot to prove if they want to mess with the big kingdoms, empires, or etc. In other news JerBen206 has become started a collection of books for the community of dragonstone to read and enjoy. So far they have been an interesting read to say for sure. It is good to see there is art and culture being created here on dragonstone as well as more kingdoms to help secure the safety of the people of dragonstone. Now we shall move on to more basic news weather reports show that we will have a cool weather effect of 76F high and 70F low. One final note to make for today's news report is that we plan to have a memorial day small gathering of community to meet near spawn and enjoy each others company in peace. The small minor event will be held around 8pm central timezone so keep up with the clocks, digital watches, spell time casters, or what ever you use to tell time. Stay safe dragonstone this is Iron signing out for tonight's news report.

June 3rd, 2021

Hello today's news report will be short due to our engineers here at one of our facility's is trying to have us work on a new project. Today we like to introduce an announcement to all clan groups who wish to join the United clan hub area this is an area for all clans to build a embassy and discuss world order, rules of the clans, trade agreements, or server chaos events. More information and rules of the hub zone will be posted later on within a few days
