Iron News Archive 1.17

June 20th, 2021

Hello there fellow dragonstone community today marks the dawn on a new day for dragonstone. After a a lot of terraforming the world of dragonstone has changed. At the moment there are not that many civilizations here at all only a few small camps or settlements at the moment. Many of the people of dragonstone have already started setting up traveling stations to camps near the protect draconian barrier that is protecting the people while our science team scans for any anomaly’s in the area. In other news the dragon egg hunt has been a fruitful event bringing many old and new citizens of dragonstone have arrived here so far here we look to the future for dragonstone as well as hope for a new chapter full of life, adventure, and lore.

June 28th, 2021

Hello today we bring you a report on today’s weather it will be mainly sunny with a small chance for thunderstorms around 7pm eastern time. There have been reports of new discovery’s from our mob research team here at dragonstone explaining about strange spawners with a hidden secret. More details will be shared later on. Also we would like to take this time to thank the donators of dragonstone for their grand donations here at dragonstone they have made this place breath life for a good while and have now given dragonstone the energy it needs to keep pressing on to a new horizon. This is Iron and we thank you for reading the report for today. (Ps still looking for DAVE)

July 14th, 2021

breaking news tutorial dungeons are opening tonight it seems there will be more info today. Also iron broadcast might happen to answer questions on what is this tutorial dungeon.

July 20th, 2021

Hello there and welcome to today’s dragonstone news report. Today’s weather has been interesting so far this week but we expect there to be light rain showers later this evening. Humidity is at a 6 at the moment with a temp being 79F. In other news reports of the dungeon tutorial has gone successful. This is good becuase to be honest we need people who are able to go into a dangerous situation. You see dragonstone has its own military power which we have tried to use to save Dave and the dig site team however we have had no luck in this matter. That is why with a heavy heart we seek help from the citizens of dragonstone. That’s right we are recruiting as many people to head out to these locations to help us figure out what on dragonstone is going on with this dig sight and why we have had no success in finding the people we have lost contact with. (On a side note we have discovered that this so called material we have found from some of the undead known as undead essence seems to be useful in creating some new “toys” for us to use in the field of combat.) We are also looking into who had been able to send a broadcast through the dragon stone news center and find out what exactly they want.

September 6th, 2021

Hello there its been a long time but i believe it is time to get back to some good old fashion reports from across dragonstone. Today we are starting off with a small informational recruitment advertisement from the Reach. The Reach is a group of over 4 dragonstone citizens who have

managed to gather and create a peaceful society for anyone willing to help grow their community. I did a short interview with one of the citizens there which people may know this individual as Sovker. Sovker is on of the Reach's main town guardsmen and executioner who says the Reach was first founded around the month of June during dragonstones recreational timezone. The reach do not have that meany enemy's and the Reach is full of life, agricultural farmlands, a harbor, plenty of resources, and good community. The only down side to The Reach is that they on occasion have as Sovker put it "idiots" who come to raid them other than that they are a prime example of a outstanding community who seeks people willing to make a difference on dragonstone. If you wish to join this community talk to Sovker for more details on how you can join the Reach a better future as a family. thank you for tuning in today when we return we will go over reports of the adventurers who have managed to scout out areas of Dave's Location.

September 8th, 2021

Breaking news the kingdom of reach and the kingdom of the Frank’s have formed an alliance strengthening both groups in commercial trade, as well as military strength. It is unknown how or why these two groups formed an alliance but one thing is certain whatever may happen progress for the people of dragonstones development has grown. We will keep a watchful eye too see what will come from this new alliance and how it will effect the people of dragonstone in the long run...

October 13th, 2021

Hello there and welcome to Dragonstone news. It has been a good amount of time since we had good old talk by the fire. I would first like to start off with saying how good it is to be back and somewhat operational for the time being. Details on the matter are still unavailable for certain reasons how ever but rest assure that all is well for this news broadcast. Now for tonight's first bit of information. it seems the many of the shops in dragonstone have closed down. This would cause concern for the people of dragonstone since without these shops trades between one another could become dangerous due to bandits and other veil problems that are still plaguing dragonstone and her people. However there is some good news some shops that are somewhat new and ready to take up the challenge of selling the finest things from across the world to the people of dragonstone. These shops and people are not limited too but are worth checking out for great deals and all you could need. "The new icy island, named Thieves' Hollow, a tavern-esque establishment constructed inside the Ice Maw Mountain, is ran by Rota, with the aid of Zikkyy and DoofleBoi. The quarry island is ran by King of Cringe, with Harbinger as his ally. these two shops have replaced the old shops in draagonstone known to many as Dwarf's tower, and Chef's tree." In other news reports of a strange anomaly has been spotted in the nether, the end and in the void. this anomaly is being researched by a group known as the "Peoples Republic of Dragonstone" these people are still new to me so I will have to learn more on them but from what I can gather so far they seem to be popular to the hearts and minds of the citizens of dragonstone. Im afraid that is all the time we have for tonight but we do plan to broadcast more thank you all for your time and we wish you are wonderful week.

To the people of dragonstone welcome back to dragonstone news. Today there have been some exciting new events happening across the server. First the dragonstone council are in debate on a

new resultion known as the Natural sanctuaries act. This act of passed will provide a natural peaceful park to be constructed full of life where citizens of dragonstone can go to escape from their troubles. However this will of course require the dragonstone industiral side to decrease its production of aether research in favor of natural parks. In other news the dragonstone discord has record a mighty new A. I. Upgrade to the the musics and fine arts upgrades to help improve culture of music for the people of dragonstone. That’s all for now but when we return we shall talk more about dragonstones research division and what they are doing to help improve dragonstones understanding of the world we live in.

November 25th, 2021
