

Mentos (Drackys)

IGN: METOOCOOL

"You Dare?!"

Overview:

Mentos, also known as Drackys by other Dragons, is a very reclusive player who is known to be a Storm Dragon.

They are the only known storm dragon on Dragonstone, and is rumored to possess powerful lightning channeling abilities. They are often presumed to be unkillable and impossible to locate. They possess exceptional mastery in the element of Earth.

They rarely speak in chat and tend to avoid conflict as much as possible, however it is wise to avoid provoking them. They are rumored to be Enkindled by the Dragon of The Night, although the extent of their power is not yet known.

Notable Features:

- Drackys is a storm dragon with large glowing purple wings.
- Their wings appear to grant them the ability to fly for short periods of time.
- They have been observed channeling lightning from a long distance away.
- Their Dragon Scales make them completely immune to fire.
- They possess exceptionally high levels of Earth Affinity.

Contributions:

- They are currently the main builder for Dragonstone, and have worked on many dungeons, uhc maps and server spawns.
- They also have a direct involvement in creating [redacted].

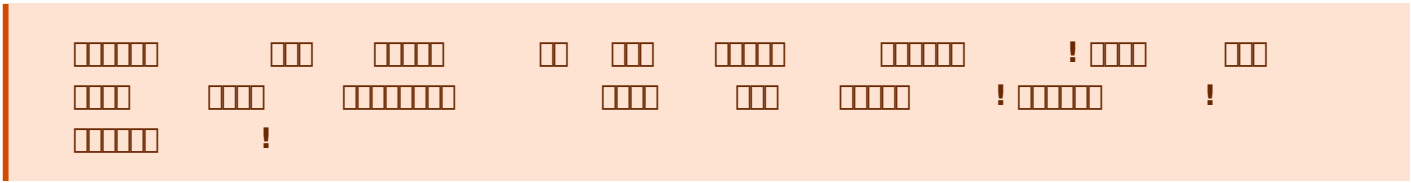

Built Maps:

- Server Spawn (1.18)
