

Sunset

Sunset is a group founded in 1.15 by NezumiDalegend, with the first members being TheAlphaWolf, MonkeyBug34 and MasterTagz. As the versions of Dragonstone have gone on, Sunset has grown in size. It is a peaceful group that tends to stay out of trouble, and has an alliance with the Iron Forge, the Reach, and Remnant along with Eterna. Dragon himself approves of the group, and considers them friendly. Sunset has made some enemies, with the main one was the Mad King Alliance due to their leader, the Mad King, having it out for the group. Sunset's name comes from the team's banner created by Nezumi, which resembled a setting sun.
